

On August 14th, 2017 at the AMO annual conference the government of Ontario launched the Municipal GHG Challenge Fund.

The Municipal GHG Challenge Fund is a competitive, application-based program. Ontario is inviting municipalities to submit applications for the fund by November 14, 2017. Selected projects will be announced in 2018.

Ontario will be hosting webinars on the Municipal GHG Challenge Fund on September 11 and September 14 to help applicants gain a better understanding of the program and its requirements.

For more information on the Municipal GHG Challenge Fund and for webinar information, please visit the [Municipal GHG Challenge Fund webpage](#) on the Grants Ontario website. Questions can also be sent to ChallengeFund@ontario.ca

We look forward to seeing the exciting projects that come to fruition through the Municipal GHG Challenge Fund.

Sincerely,

Municipal GHG Challenge Fund Team
