*We're working to connect employers
with the right recruits for their business.*

**Join us for a discussion to solve widespread hiring challenges
and network with service providers that are there to help.**

The Huron County Employer Roundtable, a partnership of Huron County Economic Development and the Huron County Local Immigration Partnership, is bringing employers together to address our regional workforce hiring needs. Service providers from Huron County and the London area will be present offering resources to facilitate a non-traditional process of accessing and hiring a new workforce that includes immigrants and refugees. Participation in the roundtable discussion is a prerequisite to attending the January 2018 job fair in London being planned by the County of Huron.
