

To North Huron Council,

April 2nd 2016

We the taxpayers of North Huron need a hard surface on the well travelled Nature Centre Road.

We have a very poor grader operator who drives the grader too fast leaving a wash-board road, there isn't even enough air in the grader's tires. Pot holes are still there after the road has been graded. Only the top half of the pot hole is removed and the other half filled with loose gravel. No time, the pot holes are there again, making our road not even safe to drive on, causing damage to vehicles.

Nature Centre Road is well travelled due to Maitland Valley Conservation and Dave & Gloria Hedley's Fish Pond.

If we had a hard surface on Nature Centre Road there would be more traffic to Maitland Valley and Hedley's bringing people from afar.

If we had a hard surface we wouldn't be scooping expensive gravel out of the ditches and off grass that is cut on most of the sides of the road.

If we had a hard surface you wouldn't have to prepare the road for expensive spray to keep the dust down in summer.

With our poor grader operator the pot holes were so deep the road had to be graded in the summer losing our expensive dust spray.

Thanking you for making it possible to have a hard surface on Nature Centre Road.

Dear Residents of North & East Kawartha Ward.

We are writing to you as concerned residents of the East Kawartha Ward of North & East Kawartha Ward. We are very concerned about the state of our roads and the maintenance they are receiving. Our grade operators are driving much too fast, our roads are deeply rutted with numerous potholes, large enough to damage a vehicle, gravel that should be on the road is in the yards and fields and most recently the roads were graded and some how large clumps of dirt and gravel ended up in the centre of the road causing drivers to have to swerve or drive on the wrong side of the road to prevent damaging their vehicles. It appears that the road had been disced. Gravel roads in our neighbouring municipalities do not have the same problems with their surfaces.

Some of our roads are well-traveled and support business and recreation.

We would like our grader operators to be trained and more closely supervised in their daily work.

The residents tell us we have been forgotten about for our share of tax dollars. '--- Nothing mentioned in the budget for East Kawarush Ward roads, we want our share

of the road money. We want to see the money go to the roads we live on.
